Book entitled "China in Those Days" --- by Thomas Brandt

The book illustrates the early Chinese life through an excess of 1600 postcard images from what is most probably the largest pictorial collection of ancient images on China and "China Offshore" (Chinese overseas ... Chinatowns around the world in San Francisco, New York, LA, Singapore, Malaysia, Indonesia, Vietnam...). The historical picture journey spans the late 1890s into the first decades of the 20th century, an era when it was a privilege to send and receive postcards from an exotic country, especially one as far away as China. Each postcard is worth a thousand words. He will show many picturesque postcards pictures from the book.
